

PartnerConnect Program

Software
Systems™

Where information meets
innovation™

Why partner with RJS Software?

- 1 Industry leading provider of document management lifecycle software.
- 2 Proven high-margin products that are easy to sell, install and support.
- 3 Products expand your solution profile and open the door for new clients and recurring revenue.
- 4 Channel focused and committed to building a world-class partner program.

All our solutions are designed to give your customers the tools they need to save money and go paperless by streamlining business processes and more efficiently managing the entire lifecycle of their documents and data.

Document Management Lifecycle

Our solutions include:

WebDocs

A robust web-based document management system that allows users to capture and electronically store, manage and distribute documents and data.

SignHere

Speed up approval processes by digitally capturing and applying signatures to documents created from any source.

WebForms

Streamline data collection and workflow by web-enabling HR, Order entry and other forms.

iForms

Create professional invoices, purchase orders, billing statements and advanced reports without relying on expensive pre-printed forms or custom reporting tools.

Additional Products

RJS provides a variety of other products, including workflow solutions that automate business processes and document distribution, and data integration tools that help systems on different platforms share information.
